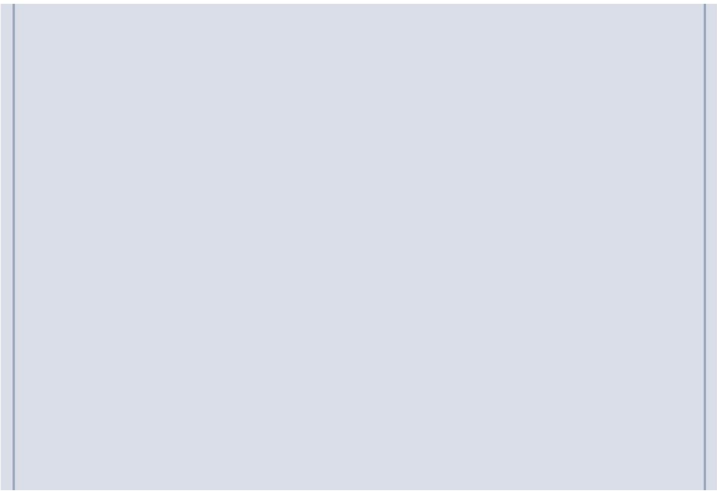
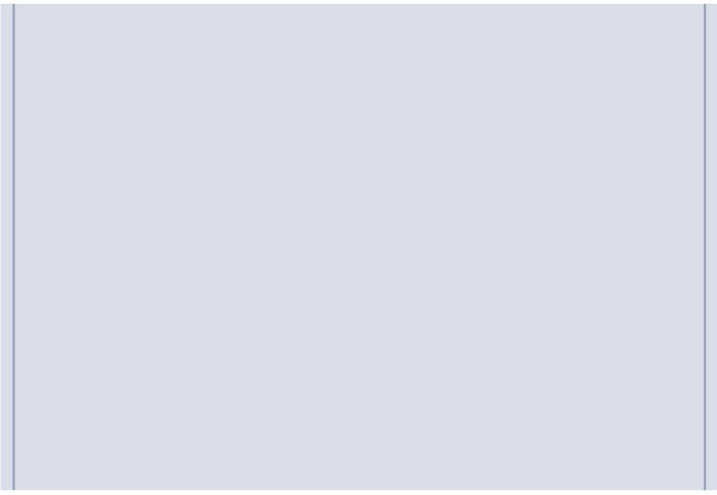
SURVIVAL NODE

Premium Emergency-Ready AI & Power Platform



Portable Solar Battery Integration



Rugged Black Hard Case Protection

Why teams choose Survival Node

A deployable, field-ready system designed for power outages, internet disruptions, and high-stress scenarios. Survival Node combines resilient hardware and practical AI workflows so you can make decisions and execute when normal systems fail.

Rapid Deployment

Pre-configured system you can deploy quickly during emergencies.

Operational Continuity

Maintain planning, communication, and coordination during outages.

Portable Resilience

Built to travel safely and operate from flexible locations.

Actionable Intelligence

AI-assisted field workflows for triage, planning, and execution.

Built for readiness. Built for continuity.
